2024 AUTUMN SCIENTIFIC MEETING

14-15 November 2024, ICC Belfast

with guest society The German Society for Surgery of the Hand

THURSDAY 14th NOVEMBER

Theatre 1 Main Lecture hall

	I heatre 1 Main Lecture hall	
8:00	Registration	
8:30	Welcome	
8:35	Free papers session	Chairs: Mrs S Tucker/Mr B Lane O'Neill
8.38	The role of regional anaesthesia and daycase surgery in the management of upper limb spasticity	Mr M Craigen
8.46	Using Kaplan Meier analysis to estimate progression of Kienbock Disease and rate of surgical intervention	Dr G Esworthy
8.54	Using electrodiagnostic studies to guide surgical intervention in acute closed nerve injury	Miss R Currie
9.02	Using genetics to investigate causality in metabolic associations of carpal tunnel syndrome - a Mendelian randomisation study.	Miss A Wood
9.10	Distinct patterns of fracture propagation in distal radial fractures and the relationship to the ulnar head	Prof G Giddins
9.20	History in Hand Surgery	Chairs: Mr D Russell /Mr K Cronin
9.20	History of Hand Surgery in Ireland	Mr M Brennen
9.40	History of the German Hand Society	Prof M Langer
10.00	Refreshment Break	
10.30	BSSH collaborative successes	Chairs: Mr F Iwuagwu/ Mr W Lam
10.30	Surgical speciality leads - 10 years anniversary	Mr M Gardiner
10.42	Surgical speciality leads - my path; my role	Dr E Reay
10.54	BOA leadership course	Ms C Quinlan
11.06	BSSH visiting fellow - Home and away	Dr. R K. Hackenberg
11.12	BSSH visiting fellow - Home and away	Dr. E Chinonso Blessing
11.30	Session TBC	Chairs: Ms C Fox / Mr I McNab
11.30	Characteristics of patients with CRPS after occupational injury	Dr S Kim
11.40	TBC	Mr K Cronin

12.00	Guest Lecture:	Chair: Miss G Bourke
12.00	Hand Surgery in Europe, a journey and an out view.	Prof M Haerle
12.20	IFSSH - history, meetings and money	Prof D Warwick
12.30	Lunch and exhibition	
13.00	KLS Martin - Lunchtime symposium	
13:30	Carpo/metacarpal joint osteoarthritis session	Chairs: Mr Z Naqui/ Dr.med. M Muehdorfer- Fodor
13.30	Clinical approach to CMCJ OA	Mr C Heras-Palou
13.37	Trapeziumectomy - how well does it really work	Mr S Gangopadhyay
13.44	Denervation for CMCJ	Prof M Haerle
13.51	Pyrocardan for CMCJ OA - The Irish experience	Ms 0 Flannery
13.58	Indications and limitations of CMC prosthesis	Dr H Lamou
14.05	Endoprosthetic treatment of carpometacarpal joint	Dr.med. M Muehdorfer-Fodor
14.12	Arthroplasty surgical tricks and tips	Mr G Cheung
14.19	Preventing mishaps and complication	Mr S Talwalkar
14.26	Why surgery is not an option for CMCJ OA	Ms J McEachan
14.33	CMCJ case clinic	Mr Z Naqui
14.43	Panel discussion	'
15.00	Refreshment Break	
15.30	Session PIP joint arthroplasty/revision session	Chair: Miss D Shirley/Mr D Boyce
15.30	When I would do and not do a PIP joint arthroplasty	Mr D Shewring
15.42	PIP joint denervation	Prof M Haerle
15.58	Revision after failed PIP joint arthroplasty	Dr.med. M Lautenbach
16.10	Panel discussion/cases	
16.25	Pearls to share session	Chairs: Miss R Shirley/ Mr D Thornton
16.25	Corrective osteotomies of the fingers	Prof M Langer
16.38	Pitfalls and problems in the so called minor hand surgery	Dr R Nyszkiewicz
16.50	Panel discussion/cases	
17.00	Close of scientific meeting programme	
17.00	BSSH Annual General Meeting	
18.00	Close THURCDAY 1/45 NOVEMBED	
THURSDAY 14th NOVEMBER Theatre 2 Parallel Lecture Hall		
9.00	Global Partnership symposium	Chairs: Mr C Mariathas / Ms C Bossut
9.00	Global Partnership committee update	Mr C Mariathas
9.12	LION project update	Mr J Jones
9.24	LION fellow perspective (recorded talk)	Dr G Ngondo
9.36	Sierra Leone: the development of a collaboration over more than a decade	Mr S Hodgson
9.48	Panel discussion	

10.30 OINT trial discussion	10.00	Refreshment break	
10.50 Non operative management - my technique Mr C Heras-Patou 10.58 Non operative management - my technique Mr J Oni 11.04 Non operative management - my technique Prof G Giddins 11.00 Non operative management - my technique Prof G Giddins Ms S Bradley Non operative management - cases discussion Mr David Swain Panel discussion Mr David Swain Prof M Haerte Prof D Warwick Prof D	10.30	Non-operative treatment of Proximal Phalanx Shaft fractures"	Chairs: Miss A Karantana, Mr R Trickett, Ms C Rowan
10.58 Non operative management - my technique Mr J Oni 11.04 Non operative management - my technique Prof G Giddins 11.10 Poole splint Ms S Bradley 11.11 Ms S Bradley 11.12 Non operative management - cases discussion Mr David Swain 11.20 Non operative management - cases discussion Mr David Swain 11.20 Uses Lecture - main theatre 12.00 Less Heart - main theatre 13.30 Research symposium 13.40 Research symposium 13.41 Research symposium 13.42 Research symposium 13.42 Research symposium 13.44 Research symposium 14.45 Lectronic remote symptom monitoring by ENCAT 14.40 Panel discussion 14.40 Panel discussion 15.41 All Heart - Mr C Harrison 15.42 Hand surgery core outcome sets 16.43 Panel discussion 15.44 Research - Mr S Deshmukh 16.55 Research - Mr S Deshmukh 16.56 Panel discussion 16.67 Chairs: Ms R Dolan/ Mr E Prashanth Jesudason 16.77 A Riemen 16.78 Bioabsorbable implants for paediatric forearm fracture treatment: a systematic review 16.87 Mr S Deshmukh 16.88 Rougers - Mr J Compson 16.89 Research - Mr J Compson 16.15 Poveloping a teaching programme for the multidisciplinary hand team at the LION 16.80 Answert Research - Mr J Compson 16.80 Panel discussion 16.80 Panel disc	10.30	POINT trial discussion	Miss A Karantana
11.04 Non operative management - my technique Prof G Giddins 11.10 Poole splint Ms S Bradley 11.22 Non operative management - cases discussion Mr David Swain 12.00 Panet discussion 12.00 Suest lecture - main theatre Chairs: Miss G Bourke 12.00 Prof M Haarte 12.01 PSSH- history, meetings and money 12.02 IFSSH- history, meetings and money 12.03 Lunch and exhibition 13.30 Research symposium Chairs: Miss A Karantana, Mr R Wade, Dr S Kim 13.30 RSTN studies & novel trial designs - maybe recorded 13.42 Results of the hand examination module of the population based cohort study SHIP Dr S Kim 13.54 Electronic remote symptom monitoring by EMCAT Mr C Harrison 14.06 Very-big-data: Linking international big datasets 14.18 Hand surgery core outcome sets 14.19 Panet discussion 15.00 Refreshment Break 16.30 Panet discussion 15.31 Developing a teaching programme for the multidisciplinary hand team at the LION hospital, Malawi: current updates 15.33 Developing a teaching programme for the multidisciplinary hand team at the LION hospital, Malawi: current updates 15.39 Surfall history of carpal collapse in Grade 3 and 4 Klenbocks disease as a guide for symptom based treatment 15.47 The use of biodegradable tissue matrix in LMICs: The Malawi experience Miss A Griffiths 15.51 TBA TBA 15.55 Bioabsorbable implants for paediatric forearm fracture treatment: a systematic review Miss A Criffiths 16.10 Panet discussion 16.11 Panet Mr S Deshmukh 16.22 Surgical management of the hand in Apert Syndrome: a 27-year experience Mr S Deshmukh 16.23 Patient outcomes for finger fractures and joint injuries (OFFJI) prospective cohort study 16.23 Large and Applicat presentations with scaphoid nonunion: findings from a national audit Mr H Akehurst	10.50	Non operative management - my technique	Mr C Heras-Palou
11.10 Poole splint Ms S Bradley 11.22 Non operative management - cases discussion Mr David Swain 11.30 Panel discussion 12.00 Quest lecture - main theatre 12.00 Hand Surgery in Europe, a journey and an out view Prof M Haerle 12.00 Lunch and exhibition 13.30 Research symposium Chairs: Miss A Karantana, Mr R Wade, Dr S Kim 13.30 RSTN studies & novel trial designs - maybe recorded Mr J Wormald 13.42 Results of the hand examination module of the population based cohort study SHIP Dr S Kim 13.54 Electronic remote symptom monitoring by EMCAT Mr C Harrison 14.10 Very-big-data: linking international big datasets Mr S Deshmukh 14.30 Panel discussion 15.30 Refreshment Break 15.30 Infographic free papers session Developing a teaching programme for the multidisciplinary hand team at the LION hospital, Malawi: current updates 15.37 Natural history of carpal collapse in Grade 3 and 4 Kienbocks disease as a guide for symptom based treatment 15.47 The use of biodegradable tissue matrix in LMICs : The Malawi experience Miss A Griffiths 15.55 Bioabsorbable implants for paediatric forearm fracture treatment: a systematic review Miss M Loredana Popescu 16.15 Panel discussion 16.17 Panel discussion 16.18 Queloping a core outcome set for hand flexor tendon injuries in adults: a systematic review of treatment outcomes 16.19 Queloping a core outcome set for hand flexor tendon injuries in adults: a systematic review of treatment outcomes 16.19 Queloping a core outcome set for hand flexor tendon injuries in adults: a systematic review of treatment outcomes 16.19 Queloping a core outcomes set for hand flexor tendon injuries in adults: a systematic review of treatment outcomes 16.19 Queloping a core outcomes set for hand flexor tendon injuries in adults: a systematic review of treatment outcomes 16.19 Queloping a core outcomes set for hand flexor tendon injuries in adults: a systematic review of treatment outcomes 16.11 Queloping a core outcomes for finger fractures and joint injuries (DFFJI) prospective cohort of the hand in Apert Syndro	10.58	Non operative management - my technique	Mr J Oni
11.22 Non operative management - cases discussion Mr David Swain 11.30 Panel discussion 12.00 Guest lecture - main theatre 12.00 Hand Surgery in Europe, a journey and an out view Prof M Haerte 12.20 IFSSH- history, meetings and money Prof D Warwick 12.30 Lunch and exhibition 13.30 RSTN studies & novel trial designs - maybe recorded 13.42 Results of the hand examination module of the population based cohort study SHIP Dr S Kim 13.42 Results of the hand examination module of the population based cohort study SHIP Dr S Kim 13.44 Results of the hand examination module of the population based cohort study SHIP Dr S Kim 14.05 Very-big-data: linking international big datasets Miss J Lane 14.18 Hand surgery core outcome sets Mr S Deshmukh 14.19 Panel discussion 15.00 Refreshment Break 15.20 Infographic free papers session 15.35 Developing a teaching programme for the multidisciplinary hand team at the LION hospital, Malawi: current updates 15.37 Symptom based treatment 15.43 Botox relieves cold intolerance after hand injuries Dr A Riemen 15.44 The use of biodegradable tissue matrix in LMICs: The Malawi experience Miss A Griffiths 15.51 TBA TBA 15.55 Bioabsorbable implants for paediatric forearm fracture treatment: a systematic review Miss M Loredana Popescu 16.10 Panel discussion 16.15 Developing a core outcome set for hand flexor tendon injuries in adults: a systematic review of treatment outcomes 16.14 Local AnaesThetic with AdReNatine (LANTERN) study: identifying current dogma and national training needs 16.23 Patient outcomes for finger fractures and joint injuries (OFFJI) prospective cohort study 16.27 Surgical management of the hand in Apert Syndrome: a 27-year experience Ms R Vyas 16.31 Atypical presentations with scaphoid nonunion: findings from a national audit Mr H Akehurst	11.04	Non operative management - my technique	Prof G Giddins
11.30 Panel discussion 12.00 Suest lecture - main theatre 12.20 FSSH- history, meetings and money 12.30 Lunch and exhibition 13.30 Research symposium 13.30 RSTN studies & novel trial designs - maybe recorded 13.42 Results of the hand examination module of the population based cohort study SHIP Dr S Kim 13.43 Results of the hand examination module of the population based cohort study SHIP Dr S Kim 14.40 Very-big-data: linking international big datasets 14.41 Hand surgery core outcome sets 14.43 Panel discussion 15.30 Infographic free papers session 15.30 Panel discussion 15.31 Developing a teaching programme for the multidisciplinary hand team at the LION hospital, Malawi: current updates 15.31 Natural history of carpal collapse in Grade 3 and 4 Kienbocks disease as a guide for symptom based treatment 15.47 The use of biodegradable tissue matrix in LMICs: The Malawi experience 16.00 Panel discussion 16.15 Developing a core outcome set for hand flexor tendon injuries in adults: a systematic review Miss M Loredana Popescu 16.19 Panel discussion 16.19 Creatment outcomes 16.20 Panel discussion 16.21 Panel discussion 16.22 Surgical management of the hand in Apert Syndrome: a 27-year experience 16.23 Patient outcomes for finger fractures and joint injuries (DFFJI) prospective cohort study SRIP Dr C Mousoulis 16.27 Surgical management of the hand in Apert Syndrome: a 27-year experience 16.31 Atypical presentations with scaphoid nonunion: findings from a national audit 16.14 Mr H Akehurst	11.10	Poole splint	Ms S Bradley
12.00 Hand Surgery in Europe, a journey and an out view Prof M Haerle 12.20 IrSSH- history, meetings and money 12.30 Lunch and exhibition 13.30 Research symposium 13.30 Research symposium 13.30 Research symposium 13.30 RSTN studies & novel trial designs - maybe recorded 13.42 Results of the hand examination module of the population based cohort study SHIP Dr S Kim 13.34 Electronic remote symptom monitoring by EMCAT 14.06 Very-big-data: linking international big datasets 14.18 Hand surgery core outcome sets Mr S Deshmukh 14.30 Panel discussion 15.30 Refreshment Break 15.30 Infographic free papers session 15.30 Developing a teaching programme for the multidisciplinary hand team at the LION hospital, Malawi: current updates 15.39 symptom based treatment 15.43 Botox relieves cold intolerance after hand injuries 15.47 The use of biodegradable tissue matrix in LMICs: The Malawi experience 16.15 Bioabsorbable implants for paediatric forearm fracture treatment: a systematic review Miss M Loredana Popescu 16.19 Analos Albert Filt in Mr S Deshmukh 16.19 Analos Albert Filt in Mr S Deshmukh 16.20 Panel discussion 16.19 Panel discussion 16.19 Panel discussion 16.19 Panel discussion 16.20 Panel discussion 16.21 Surgical management of the hand flexor tendon injuries in adults: a systematic review of treatment outcomes 16.21 Surgical management of the hand in Apert Syndrome: a 27-year experience Ms R Vyas 16.21 Surgical management of the hand in Apert Syndrome: a 27-year experience Ms R Vyas 16.31 Atypical presentations with scaphoid nonunion: findings from a national audit Mr H Akehurst	11.22	Non operative management - cases discussion	Mr David Swain
12.00 Hand Surgery in Europe, a journey and an out view Prof D Warwick 12.00 Lunch and exhibition 13.30 Research symposium Chairs: Miss A Karantana, Mr R Wade, Dr S Kim 13.30 RSTN studies & novel trial designs - maybe recorded Mr J Wormald 13.42 Results of the hand examination module of the population based cohort study SHIP Dr S Kim 13.54 Electronic remote symptom monitoring by EMCAT Mr C Harrison 14.06 Very-big-data: linking international big datasets Miss J Lane 14.18 Hand surgery core outcome sets Mr S Deshmukh 14.30 Panel discussion 15.30 Infographic free papers session Developing a teaching programme for the multidisciplinary hand team at the LION hospital, Malawi: current updates 15.39 Natural history of carpal collapse in Grade 3 and 4 Kienbocks disease as a guide for symptom based treatment 15.43 Botox relieves cold intolerance after hand injuries Dr A Riemen 15.47 The use of biodegradable tissue matrix in LMICs: The Malawi experience Miss A Griffiths 15.51 TBA TBA TBA TBA TBA 16.15 Bioabsorbable implants for paediatric forearm fracture treatment: a systematic review Miss M Loredana Popescu 16.00 Panel discussion 16.15 Ceveloping a core outcome set for hand flexor tendon injuries in adults: a systematic review of treatment outcomes 16.19 Coal A NaesThEtic with AdReNatine (LANTERN) study: identifying current dogma and national training needs Patient outcomes for finger fractures and joint injuries (OFFJI) prospective cohort study 16.27 Surgical management of the hand in Apert Syndrome: a 27-year experience Ms R Vyas 16.31 Atypical presentations with scaphoid nonunion: findings from a national audit Mr H Akehurst	11.30	Panel discussion

roloo poutcomes or votar tocking plates for scaphold fractures - A single surgeon case series IMS L. Heat			Ms L Tiedt

16.39	Total active range of movement after treatment using a traction orthosis for extra- articular phalangeal fractures	Mr D Harte
16.45	Panel discussion	
17.00	Close of the Scientific Meeting Programme	
	Friday 15th November	
	Theatre 1 Main Lecture hall	
8.00	Registration	
8.35	Free papers session	Chairs: Mr J Bedford / Miss C Chan
8.38	Long-term follow-up of dynamic external fixation in the management of complex pilon and interphalangeal joint fractures and dislocations	Mr M Chan
8.46	One-stop clinic, a cost effective vision for streamlining elective care in hand surgery.	Mr M Elmeligy
8.54	Predicting the need for primary nerve surgery in brachial plexus birth injury patients with an intermediate test score (3.5-5.5)	Mr I Natalwala
9.02	A multi-centre prospective audit to assess the prevalence of neuropathic pain in a population following surgical digital amputation	Mr C Thomson
9.10	Advancing hand surgical training: a 3D printed model for carpal tunnel release simulation	Miss O E Priestland
9.26	A ten-year experience of scaphoid reconstruction using a free coracoid bone flap	Ms L Syed
9.30	Algorithms for fracture treatment session	Chairs: Mr S Talwalkar/Mr R Hanson
9.30	Carpal dislocations and fracture dislocations - my algorithm	Mr J Compson
9.45	Distal radial fractures - my algorithm for treatment	Prof.Dr. med M Hakimi
10.00	Refreshment Break	
10.30	Investigations update	Chairs: Ms L Thompson/Ms K Browne
10.30	Cone beam CT in hand surgery	Dr B Gibney
10.45	MRI/DTI	Mr R Wade
11.00	Ultrasound in ERBS	Prof M Ezaki
11.15	Nerve ultrasound to help diagnose upper extremity nerve entrapment and trauma	Prof Dr N van Alfen
11.30	Panel discussion	

12.00	BSSH Pioneer Lecture in honour of Mr David Evans	Chair: Miss G Bourke
12.00	Converging heritage	Prof M Ezaki
12.30	Presidential handover	Miss G Bourke/ Mr C Heras-Palou/ Mr W Lam
12.40	Lunch and exhibition	
13.30	Research priorities session	Chairs: Mr S Deshmukh / Miss A Karantana/ Mr R Trickett
13.30	Members current top 3 JLA research priorities	Mr S Deshmukh
13.42	Face-to-face consensus workshop	Miss A Karantana
13.57	Improving engagement and inclusion	Ms A Scantlebury
14.17	Real world clinical data and observational study design in niche hand surgery	R Selles
14.37	Panel discussion	
15.00	Refreshment break	
15.30	How I do it session	Chairs: Mr P Maginn/ Mr R Bains /Prof M Langer
15.30	Distal nerve transfers	Prof.Dr.med S Rein
15.42	Constriction ring syndrome: indication and technique in secondary reconstruction	Dr W Hülsemann
15.54	SL reconstruction	Prof.Dr K Megerle
16.06	DRUJ PQ Interpostion arthroplasty	Mr M Eames
16.18	Pulley reconstruction in patients with bow stringing	Professor M Langer
16.30	Panel Discussion	
17.00	Close	
	Theatre 2 Parallel Lecture hall	
8.30	Soft tissue and bone reconstruction session	Chairs: Prof.Dr M Sauerbier/ Mr W Bhat /Mr B Lane O'Neill
8.30	Management and functional reconstruction of malignant tumour at the forearm and hand	Prof.Dr M Sauerbier
8.42	Reconstruction of osteocuteneous defects in hand surgery	Prof.Dr.med S Rein
8.54	MTC hand and forearm replant / trauma recon	Mr W Bhat
9.06	Upper limb trauma - salvage technique	Mr M McBride
9.18	Injuries of the upper extremity in professional indoor - skydivers	Dr.med. A Tenbrock
9.30	Panel discussion	

10.00	Refreshment break	
10.30	NIHR hand surgery trials - before and after	Chairs: Mr D Power/ Mr D Leonard
10.30	NEON outcome	Mr M Gardiner
10.50	Discussion	
11.00	SC00T	Dr E Reay
11.12	Close	
11.15	Free papers session	Chairs: Mr K Joyce/Mr J Bedford
11.18	WAFER trial: A feasibility randomised controlled trial comparing wide-awake local anaesthesia no tourniquet (WALANT) to general and regional anaesthesia with tourniquet for flexor tendon repair – interim analysis	Mr R Faderani
11.26	Comparison of upper limb surgery versus botulinum toxin on quality of life of patients with stroke. Clinical trial	Dr P Hurtado-Olmo
11.34	Are too many nail beds repaired? Review of the evolution of decision making and it's impact at Oxford over a 10 year period demonstrates a marked reduction in procedures done	Mrs S Tucker
11.42	Surgical versus non-surgical treatment for metacarpal shaft fractures in adults: a prospective feasibility study and embedded qualitative assessment of feasibility	Dr R Taha
12.00	BSSH Pioneer Lecture in honour of Mr David Evans	Chair: Miss G Bourke
12.30	Lunch and exhibition	
13.30	Congenital challenges session	Chairs: Mr W Lam/ Ms M Dempsey/ Mr H Lewis
13.30	PIP reconstruction in children with exostosis	Dr W Hülsemann
13.42	Evo-Devo pathology: what we can learn and apply to patient care	Mr W Lam
13.52	Macrodactyly/ hemihypertrophy	Prof M Ezaki
14.04	Thumb duplication	Miss B Crowley
14.16	Cases from panel	Mr D Boyce / Mr K Cronin
14.35	Cases from panel	Miss G Smith/ Mrs A Jester
15.00	Refreshment break	
15.30	CHAULIG session (45 mins)	Chair: Mrs A Jester
15.30	Business meeting - all welcome	
17.00	Close
