

## **Session 1.5 – Assessment of the mangled hand: Principles for Functional Reconstruction**

### **Objectives:**

- Demonstrate an understanding of the aims of hand therapy from both a physio and occupational therapy perspective
- Be able to apply anatomy of the hand and wrist to hand therapy principles
- Be familiar with assessment methods to enable clinical reasoning for therapy
- Demonstrate the range of therapy modalities for treating hand and wrist injuries and conditions

### **Primary Resources:**

1. Hand Therapy Essentials—Hand Therapy 101 (AO Trauma Hand North America)
